

Craven Communities Together Community Partnership

Core20Plus5 Data Set V2 March 2024

00000

ACTasONE

Introduction

- The information in these slides is intended to identify local health needs and to support decision-making in communities as part of the <u>Core20PLUS5</u> approach. The slides focus on deprivation, smoking and the five clinical areas included in Core20PLUS5 (Maternity, Severe Mental Illness, Chronic Respiratory Disease, early Cancer diagnosis, Hypertension case-finding).
- For information on Inclusion Health please see Inclusion Health in Bradford and Craven 2024 (in development, link to be added).
- The information in the slides is not related to performance and the slides do not provide a performance assessment of organisations.
- Other sources of information about health in local areas include the Joint Strategic Needs
 Assessments for <u>Bradford</u> and <u>Craven</u> produced by the Local Authority Public Health
 teams, and the <u>Office for Health Improvement and Disparities (OHID)</u>.
- Please contact <u>anna.smith2@bradford.nhs.uk</u> with any queries or requests.

Decile 1 is most deprived

Craven Communities Together CP Summary

- Skipton South: high premature mortality from all causes and from circulatory disease, high all-age mortality from respiratory disease, high incidence of all cancers
- Skipton South, Skipton West: high incidence of lung cancer
- High emergency admissions with COPD: Settle & Ribblebanks, Skipton South, Skipton West, Sutton-in-Craven

Craven Communities Together district

- More than a quarter of people aged 65+
- Low completeness of physical health checks for people with severe mental illness
