WoW Community Partnership

Core20Plus5 Data Set
v2 March 2024

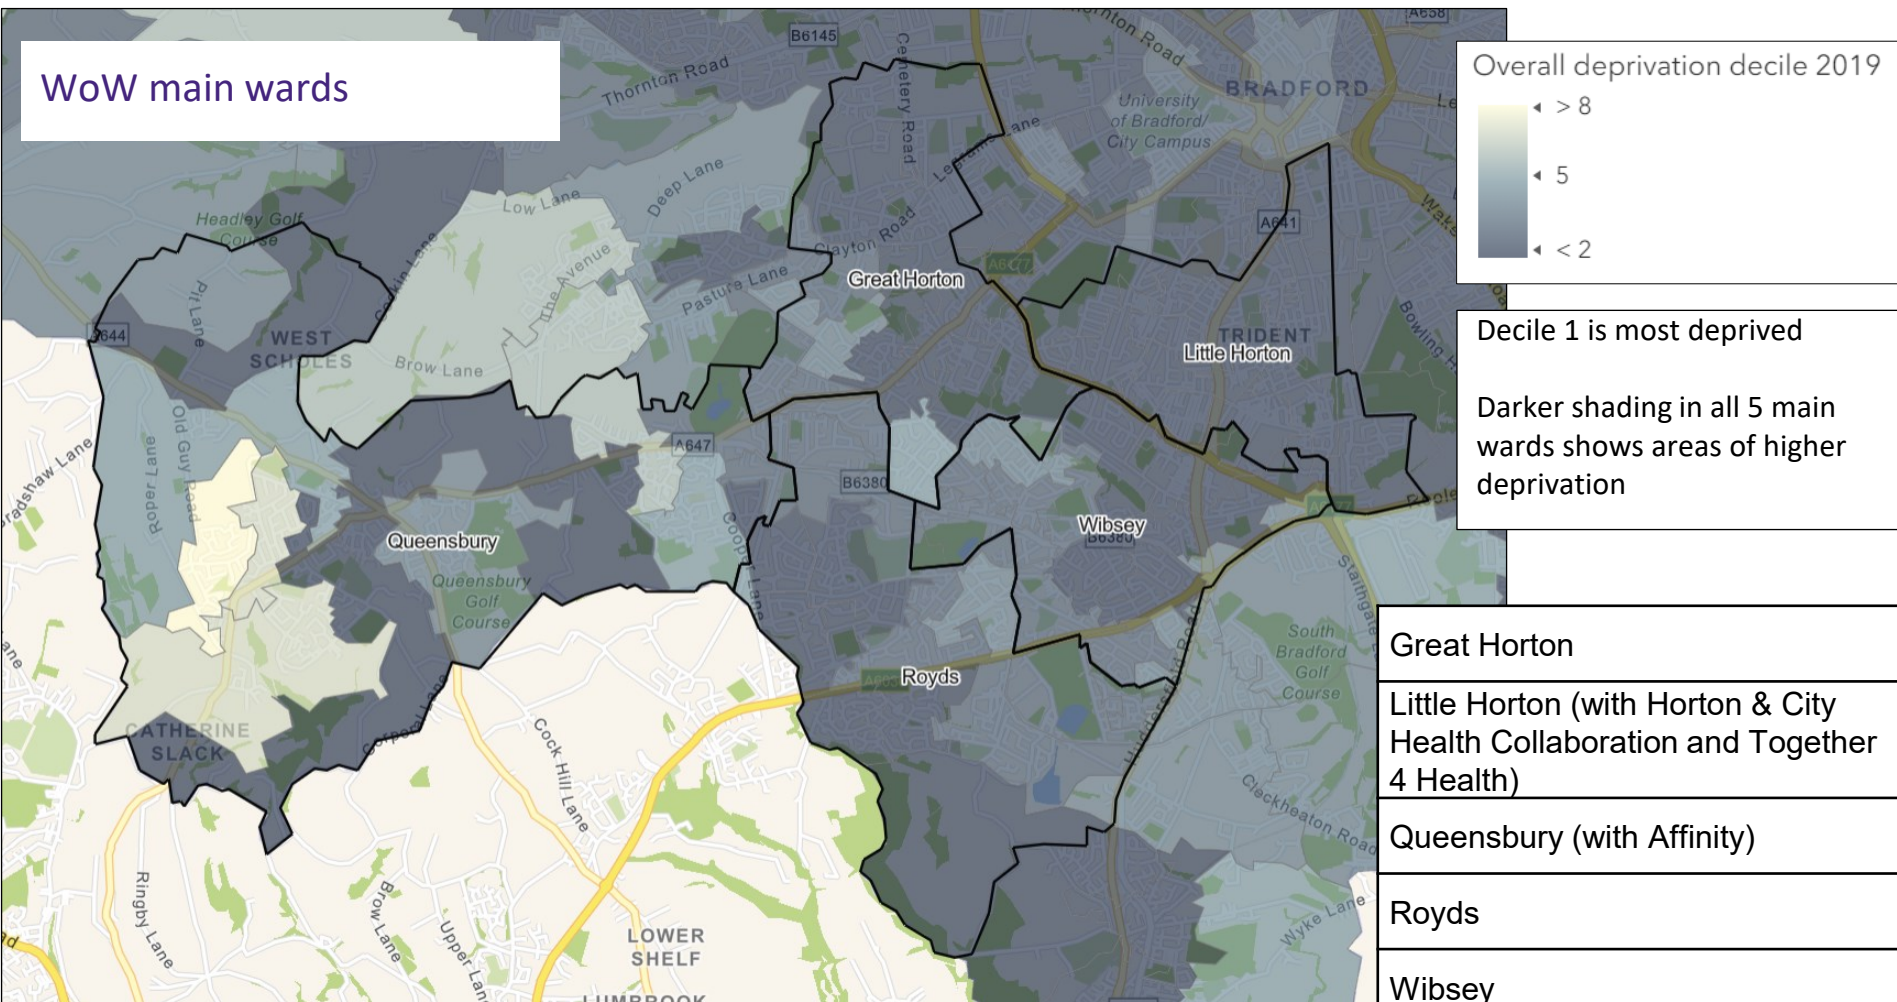

Introduction

- The information in these slides is intended to identify local health needs and to support decision-making in communities as part of the [Core20PLUS5](#) approach. The slides focus on deprivation, smoking and the five clinical areas included in Core20PLUS5 (Maternity, Severe Mental Illness, Chronic Respiratory Disease, early Cancer diagnosis, Hypertension case-finding).
- For information on Inclusion Health please see Inclusion Health in Bradford and Craven 2024 (in development, link to be added).
- The information in the slides is not related to performance and the slides do not provide a performance assessment of organisations.
- For sources of information see last slide.
- Please contact anna.smith2@bradford.nhs.uk with any queries or requests.

WoW main wards

WoW Community Partnership Summary

- High deprivation throughout Little Horton and most of Great Horton. High deprivation in areas of Royds, Wibsey and Queensbury.
- Great Horton, Little Horton and Royds: high premature mortality (all causes)
- Great Horton and Little Horton: high premature mortality from circulatory disease, high Year 6 obesity, relatively high rates of late antenatal booking and infant mortality
- Little Horton: high rate of low birth weight
- Little Horton and Royds: high mortality from respiratory disease, high emergency admissions with COPD
- WoW Community Partnership: high smoking and COPD prevalence, low flu vaccination with COPD, low completeness for health checks in severe mental illness, low rates of cancer screening (breast, cervical)

Overview: WoW

Measure	Great Horton	Little Horton	Queensbury	Royds	Wibsey	Bradford average	Bradford highest	Bradford lowest
Percentage aged under 5 (2020, England 5.7)	8.4	9.4	6.8	7.5	7.4	7.0	9.4	3.6
Percentage aged 65+ (2020, England 18.5)	10.8	7.1	15.8	14.9	15.9	15.1	29.0	5.7
Overall deprivation (2019, England 21.7)	44.7	54.6	20.5	39.9	35.6	34.7	59.8	5.9
Year 6 obesity (2020/21-22/23, England 22.5)	29.8	30.5	22.0	27.3	25.2	26.7	33.3	10.2
Standardised premature mortality (2016-20, England 100.00)	167.3	156.6	123.1	143.2	105.0	122.4	195.4	63.4

WISHH	17.16%	6.59%
WoW	13.48%	7.69%
Bradford district and Craven	14.45%	7.44%

High blood pressure (hypertension): WoW

- Estimated hypertension prevalence in England is about 26% of all adults
- Risk factors include older age and social deprivation
- Public Health England estimated in 2017 that for every 10 people diagnosed with hypertension another 7 remain undiagnosed and untreated
- Diabetes and hypertension may occur together
